PROFESSIONAL EXPERIENCE

YATRA ONLINE LIMITED - Software Developer

January 2026 - Present

- Developed Per Booking Posting Functionality, consolidating invoice line items into a single API transaction per booking reference.
- Enhanced Generic API Posting Handler with encryption/decryption, bulk posting, and file attachment support.
- Implemented automated failure alert notifications and optimized retry mechanisms for enterprise integrations.
- Contributed to a configuration-driven portal that enabled feeder management through UI, reducing manual database updates.
- Tech Stack:** React.js, Node.js, Java, SpringBoot, Redis, SQL, MySQL, RESTful APIs, MongoDB

JIO PLATFORM LTD. (JPL) - Software Developer (Graduate Engineer Trainee)

August 2024 - January 2026

- Contributed to CRM platforms serving 100K+ users across Netmeds, Campa-Cola, and Ajio.
- Developed ticketing workflows and REST APIs handling 500+ daily support requests.
- Built automated ticket assignment and escalation mechanisms, improving response time by 35%.
- Resolved 50+ production issues and fixed 15+ security vulnerabilities while maintaining 99.9% application stability.
- Tech Stack:** React.js, Node.js, PHP, JavaScript, Redis, SQL, MySQL, RESTful APIs

SIEMENS - Software Developer Intern

January 2024 - August 2024

- Enhanced TIA Portal compatibility to support future automation workflows.
- Developed multi-document processing and automated data splitting for PLC relocation projects.
- Built XML import/export modules, improving data consistency and interoperability.
- Implemented 25+ unit tests, achieving 85% code coverage.
- Tech Stack:** C#.NET, XML, JSON, Git, Nunit, Mocking, Prompt Engineering

TECHNICAL SKILLS

Programming Languages : Java, JavaScript, TypeScript, PHP, SQL, HTML5, CSS3

Frontend : React.js, Next.js, Redux

Backend : Node.js, Express.js, PHP, RESTful APIs, Next.js, SpringBoot

Databases & Caching : MySQL, MongoDB, Redis, SQL

Core Subjects : OOPS, DBMS, OS, CN

Soft Skills : Problem Solving, Creativity, Teamwork, Communication, Adaptive Learning

Also Familiar With : Generative AI, Docker, Github, Git, Wordpress, Prompt Engineering

PROJECTS

VISORA | Live - <https://visora-eight.vercel.app/>

- Built an AI-powered content creation platform with 5+ tools using Gemini AI, Clipdrop, and Cloudinary APIs.
- Implemented authentication, role-based access control, subscriptions, and payment integration.
- Developed community features with real-time interactions supporting 100+ concurrent users.

FLEXCOURSES | Live - <https://flixcourses.vercel.app/>

- Developed a full-stack learning platform using the MERN stack.
- Integrated Razorpay payment gateway and email workflows.
- Built 20+ REST APIs and improved frontend performance by 40%.

EDUCATION

- Chitkara University, Punjab (9.81 CGPA) 2020 - 2024
Bachelor of Engineering Degree in Computer Science and Engineering
- Aravali International School Faridabad, Haryana (81%) 2018 - 2020
- Higher secondary education (XII)

ACTIVITIES

- Leetcode - <https://leetcode.com/aradhya3992/> (done 350 questions, 4 Badge)
- GFG - <https://auth.geeksforgeeks.org/user/aradhya0107be20/> (done 282 points)
- Hackerrank - https://www.hackerrank.com/aradhya_gargag89 (C++ 5 star, Java 4 star, Sql 3 star)
- Codestudio - https://www.codingninjas.com/codestudio/profile/Aradhya_23f4 (Champion level)
- Ex executive member of IEL Society in promotion team.
