PROFESSIONAL EXPERIENCE

Yatra Online Limited — Software Developer

January 2026 – Present

- Developed Per Booking Posting, consolidating invoice line items into a single API call per booking.
- Optimized Kafka consumer processing, reducing redundant API calls by ~85% across 25+ shared-topic consumers.
- Built retry logic, alerts, and Kafka DLQ pipelines to enhance fault tolerance and message reliability.
- Engineered a config-driven portal for UI-based feeder management, eliminating manual DB updates.
- Resolved production bottlenecks across enterprise client integrations to ensure high system availability.
- Tech Stack: React.js, Node.js, Java, SpringBoot, Redis, SQL, MySQL, RESTful APIs, MongoDB, Kafka

Jio Platforms Ltd. (JPL) — Software Developer

August 2024 – January 2026

- Contributed to CRM platforms serving 100K+ users across Netmeds, Campa-Cola, and Ajio.
- Developed ticketing workflows and REST APIs handling 500+ daily support requests.
- Built automated ticket assignment and escalation mechanisms, improving response time by 35%.
- Resolved 50+ production issues and fixed 15+ security vulnerabilities while maintaining 99.9% application stability.
- Tech Stack: React.js, Node.js, PHP, JavaScript, Redis, SQL, MySQL, RESTful APIs

Siemens — Software Developer Intern

January 2024 – August 2024

- Enhanced TIA Portal compatibility to support future automation workflows.
- Developed multi-document processing and automated data splitting for PLC relocation projects.
- Built XML import/export modules, improving data consistency and interoperability.
- Implemented 25+ unit tests, achieving 85% code coverage.
- Tech Stack: C#/.NET, XML, JSON, Git, NUnit, Mocking, Prompt Engineering

TECHNICAL SKILLS

Programming Languages : Java, JavaScript, TypeScript, PHP, SQL, HTML5, CSS3

Frontend : React.js, Next.js, Redux

Backend : Node.js, Express.js, PHP, RESTful APIs, Next.js, SpringBoot

Databases & Caching : MySQL, MongoDB, Redis, SQL

Core Subjects : OOPS, DBMS, OS, CN

Soft Skills : Problem Solving, Creativity, Teamwork, Communication, Adaptive Learning

Also Familiar With : Generative AI, Docker, Github, Git, Wordpress, Prompt Engineering

PROJECTS

SkyFlow — Live: <https://sky-flow-frontend.vercel.app/>

- Built Node.js microservices with an API Gateway, decoupling searches from bookings.
- Prevented double-booking using Redis Distributed Locks and the RabbitMQ Outbox pattern.
- Achieved <5ms latency via Redis caching, integrated Razorpay, and deployed on cloud infrastructure.

Visora — Live: <https://visora-eight.vercel.app/>

- Built an AI-powered content creation platform with 5+ tools using Gemini AI, Clipdrop, and Cloudinary APIs.
- Implemented authentication, role-based access control, subscriptions, and payment integration.
- Developed community features with real-time interactions supporting 100+ concurrent users.

FlexCourses — Live: <https://flixcourses.vercel.app/>

- Developed a full-stack learning platform using the MERN stack.
- Integrated Razorpay payment gateway and email workflows.
- Built 20+ REST APIs and improved frontend performance by 40%.

EDUCATION

- Chitkara University, Punjab** — Bachelor of Engineering, Computer Science and Engineering
2020 – 2024 | CGPA: 9.81
- Aravali International School, Faridabad, Haryana**
Higher Secondary Education (XII) — 81%

ACTIVITIES

- LeetCode — 350+ questions solved, 4 badges (leetcode.com/aradhya3992)
- GeeksforGeeks — 282 points (auth.geeksforgeeks.org/user/aradhya0107be20)
- HackerRank — C++ 5-star, Java 4-star, SQL 3-star (hackerrank.com/aradhya_gargag89)
- CodeStudio — Champion level (codingninjas.com/codestudio/profile/Aradhya_23f4)
- Ex-executive member of IEL Society, Promotion Team
